² For panelist experience purposes, PRESWITHOP and OPWITHPRES were asked of all respondents in order to give them the opportunity to weigh in on both parties. However, these items are subject to strong order effects, so we only analyzed data based on the item asked first – which was based on form. For reporting purposes, the variables PRESWITHOP and OPWITHPRES are based on form, and not the entire sample, even though the question was asked of all respondents in the survey. PRESWITHOP is based on XFORM=1; OPWITHPRES is based on XFORM=2.

³ In January 2021, second response option was worded as " ... on issues that are important to his supporters ...".

⁴ For panelist experience purposes, UNITEDREP and UNITEDDEM were asked of all respondents in order to give them the opportunity to weigh in on both parties. However, these items are subject to strong order effects, so we only analyzed data based on the item asked first - which, in all cases, was the item referring to the party a respondent identifies with (or leans toward). For reporting purposes, the variables UNITEDREP and UNITEDDEM are based on party affiliation, and not the entire sample, even though the question was asked of all respondents in the survey. UNITEDREP is based on XPARTYSUM=1; UNITEDDEM is based on XPARTYSUM=2.
