**Note**: Unspecified means that when there is a change in normal programming, we code the replacement show and label the show as unspecified.

## BROADCAST START TIME:

- **Definition**: This variable applies to radio and TV broadcast news and gives the STARTING TIME of the program in which the story appears.

**Codes**

| | | |
|---|---|---|
| Morning program (5 a.m. – noon) | = | 1 |
| Afternoon program (noon – 5 p.m.) | = | 2 |
| Evening program (5 – 11 p.m.) | = | 4 |
| Late night program (11 PM on) | = | 6 |
| Not broadcast | = | 999999999 |

## DURATION IN SECONDS:

- **Definition**: It is the amount of time in seconds for a broadcast story only, calculated by subtracting story start time from story end time.

## STORY WORD COUNT:

- **Definition**: Designates the word count of each individual print and online news story.

- **Procedure**: Enter the exact word count as reported by the database from which a story is pulled. If not provided, cut and paste story into Word document and run "word count" tool. Do NOT count headlines, sub-heads, datelines, bylines, or photo captions.

  If story is broadcast, code is 999999999.

## PLACEMENT/ PROMINENCE:

- **Definition**: Designates where stories are located within a publication, on a website, or within a broadcast. The location reflects the prominence given the stories by the journalists creating and editing the content.

- **Placement for Newspapers**

**Procedure:** Prominence of lead story is determined by starting on the top-right corner of the front page, moving to the left corner, then moving down the left side of the front page. The location of prominence on the front page of a newspaper resembles an "S" shape pattern. A story that appears below the fold regardless of prominence is coded as 105.

**Newspaper Codes**

| | |
|---|---|
| Front Page/Most Prominent | = 101 |
| Front Page/2nd Prominent (only if above the fold) | = 102 |
| Front Page/Other – above the fold | = 104 |
| Front Page/Other – below the fold | = 105 |
| Front Page/DK/Can't Tell | = 120 |
| Don't Know/Can't Tell | = 199 |

- **Placement for News Web Sites**

**Procedure:** Only code stories with significant headlines. The biggest headline at the top of the screen is the most important story. The second most prominent story is a story that is attached to an image at the top of the screen, if that is a different story from the most prominent story. If there is no image at the top of the screen, (or there are two significant stories attached to the same image) refer then to the next largest headline. To

determine the next prominent stories, refer to the size of the headlines, and the place (height) on the screen. If two stories have the exact same font size and are located at the exact same height on screen, then the story on the left has more prominence.

**News Web Site Codes**

| | |
|---|---|
| Home Page/Most Prominent | = 201 |
| Home Page/2nd Prominent | = 202 |
| Home Page/3rd Prominent or Lower | = 203 |
| Home Page/DK/Can't Tell | = 220 |
| Don't Know/Can't Tell | = 299 |

- **Placement for Broadcast**

**Procedure**: Decide what order in the broadcast the story appeared.

**Broadcast Codes**

| | |
|---|---|
| 1st story | = 401 |
| 2nd story | = 402 |
| 3rd story or Later | = 403 |
| Don't Know/Can't Tell | = 499 |

## STORY FORMAT

- **Definition** Measures the type and origin of stories. It designates, at a basic level, whether the news story is a product of original reporting, or drawn from another news source. It delineates stories within the publication or broadcast, while measuring the stories' type and origin.

**Print and Online News Web Sites**

**Procedure**: To determine the authorship of the story. Look at both the byline at the top of the story, and any credit lines that are included at the bottom of the story to determine authorship.

**Print and Online Codes:**

**Internal staff:** Designates a story that has been reported by internal staff, with or without a byline. = 1

**Wire** (includes both parent and non-parent companies) = 2

**Combo wire/staff** = 3

**Other news outlet** = 4

**Outside contributor/freelance** = 5

**Other**: non-staff/non-wire stories, or no source/cannot tell. = 6

**Audio/video** (for online stories only): Designates a story that is made up primarily of photographs, videos, audio clips, or interactive components. = 7

**Broadcast TV and Radio**

**Broadcast TV and Radio Codes:**

**Package:** Designates a story that has been mostly prerecorded and includes editing, although some packages can include a live segment by the reporter or anchor. It must feature video (for TV) and a source and/or reporter/anchor speaking. Anchor voiceovers setting up packages should be counted as part of package. = 8

**Interview:** Includes interviews with external sources and interviews with staff. The interview could be live or live-to-tape but must be or appear to be unedited – video overlays without audio during the interview does NOT make the segment an edited package. A segment may have introductory video clips as part of the interview set-up - consider these part of the interview story. = 9

**Staff live** (Also called a "Reporter Live"): Material from a journalist that does NOT include comments from other newsmakers. It is usually outside the studio but can be inside, though rare. = 10

**Live event:** Refers to an event (e.g., a press conference, press briefing or news event) that is carried live. = 11

**Anchor read** (includes anchor voice-overs and tell stories): Anchor voice-over designates a story reported by an anchor with video as support. No reporter is involved. Tell story refers to an anchor reader without video. Graphics and animations do NOT count as video. = 12

**Unedited audio or video**: An unedited replay of a single event such as a press conference that is not carried live. = 13

**Other:** Includes typical, daily traffic and weather reports, and don't know/can't tell. = 14

**Host monologue/conversation (talk radio only)**: A host (or hosts) delivers a monologue or has a discussion in the studio, but it is not conducting an interview. = 17

## BIG STORY

**Definition:** Big stories are particular topics that occurred often in news media during the time period under study. It is important to note that this list is constantly updated throughout the year.

**Procedure:** If 50% or more of a story is about one of these big stories, code appropriately. If a story contains mentions of more than one big story, code for the big story that is more prominently mentioned.

## SUB-STORYLINE (some BIG STORIES only)

**Definition:** The sub-storyline will apply only to stories that fit into SOME of the long-running Big Stories, or other common storylines (such as political campaigns), reflecting aspects, features or development of some big stories. As with the big story code, this list is updated throughout the year.

For example, stories that fit into the Big Story of "Iraq War-Events on the Ground" could have several options for its "sub-storyline" such as a focus on casualties, Iraqi internal affairs, or the rebuilding effort. Many big stories that are less complex will likely not have any sub-storyline. Therefore, this variable will be N/A for stories that fall into a one-tiered Big Story or no Big Story.

**Procedure**: Find the big story located on the list of Sub-storylines and determine if the majority of the relevant parts of the story fit into any of the SUB-STORYLINES offered. If the story could fit into more than one sub-storyline, determine which storyline is given more space or time. If the article does not fit into any of the sub-storylines offered, code as OTHER.
